

Corruption

Corruption is when people in power misuse their position to get something for themselves instead of doing what's right. It's like cheating, but on a bigger scale.

Corruption happens everywhere, from schools to big government offices.

Corruption hurts everyone. It means less money for things like schools and hospitals, and it's not fair because some people get ahead by cheating, while others work hard and don't get the same chances.

As students, we can help fight corruption. Here's how:

1. **Learn About Corruption:** Understand what corruption is and how it affects us. Talk about it with friends and teachers.
 2. **Be Honest and Fair:** Always do the right thing, even if it's hard. Don't cheat in exams or lie to get ahead.
 3. **Speak Up:** If you see someone being unfair or doing something wrong, don't be afraid to say something. Tell a teacher or an adult you trust.
 4. **Support Fairness:** Encourage everyone to play by the rules and treat others with respect.
 5. **Get Involved:** Join clubs or groups that care about stopping corruption. Work together to make a difference in your school or community.
-

By working together and standing up against corruption, we can make our schools and communities better places for everyone.
